## Fly Fishing in Spain: An intimate contact with nature

*Fly Fishing*

Dear Friends,

It's not surprising that fly-fishing has become an obsession for many, as the sport allows you to have an intimate contact with some of the world's most untouched regions. Great lodging near prime fishing spots, the sustainable and bloodless practice of catch-and-release, the intrigue of the hunt, and the in-depth instruction now being offered have all contributed to the great popularity of the sport. Some consider fly-fishing an intellectual exercise, others pure physical enjoyment. All who try the sport, however, seem to agree that few experiences can match presenting the fly to the fish, which then values the effort by picking the bait.

Although fly-fishing is possible in countless locations, **Cantabria** and **Asturias** are still undiscovered destinations for many, rewarding and beautiful, you can fish from trout, atlantic salmon or sea trout to carp, barbel, wels catfish, pike, bass, bonito, bluefish, tuna and even white marlin.

At Greatness we are proud to offer the luxury of a traditional Spanish property combined with some of the best fly fishing hand in hand with best –in-class local experts. **Las Caldas Castle** or **Los Hornillos Palace**, are the right places to look. The properties are perfect for short stays stays or to be combined with other destinations in Spain. We recommend taking time to learn and explore this charming area.

At Greatness we invite you to enjoy privileged access and unique perspectives on the Spanish treasures.

Warm regards,
