Tower of Satrustegui, San Sebastian

TOWER OF SATRÚSTEGUI

*Available for visits and
events up to 250 people*

The Satústegui Tower was built in 1884 by Baron Satrustegui, Don Joaquín Marcos de Satrustegui y Bris. It sits in the Igueldo Mount hillside and owns one of the most spectacular views of the

city of San Sebastian and its bay La Concha. With no doubt, it is one of the most singular buildings that overlook the bay.

A representative example of eclectic architecture with historicist feel, the tower is surrounded by a magnificent tree-garden signed by the well-known landscaper Ducasse.

Together with Miramar Palace, Satústregui Tower is directly inspired in the English Renaissance of the 17th Century, even though it was built two centuries later.

Castle of Canena, Jaen

CASTLE OF CANENA

*Available for visits and events
up to 200 people*

This fortress was built by the Arabs in the ruins of a Roman castrum, there being written testimony that the king of the Taifa of Toledo took refuge in this castle upon the fall of the city.

Later, in 1538 Francisco de los Cobos, secretary to the emperor Charles V, whom we had the honour of accommodating, transformed it into a Castle-Palace, entrusting the project to the prestigious architect Vandelvira. Today it is admired as one of the most beautiful examples of the Andalusian Renaissance.

This fortress remained in the hands of his descendants, who were already the Marquises of Camarasa. It was declared a National Monument in 1931 and subsequently restored and preserved with the utmost care by our family.

La Granjilla de La Fresneda, Country House

LA GRANJILLA, COUNTRY HOUSE

*Available for visits and events
up to 400 people*

The site of La Granjilla, is part and parcel of the Fresneda, one of the big farms acquired in the context of the creation of the Royal Domain of El

Escorial by King Philip II 1527-1598, who inherited from his father the Emperor Charles V, the largest empire known until that time, in a Spain at its height and splendor. The site has significant natural, historical and artistic heritage. A remarkable palatial mansion, a convent and a chapel, built in the sixteenth century by the best technicians of the time by order of the King, for his personal use, some of which are surrounded by various ponds and Renaissance gardens.

The House of the King, House of the Friars and the Chapel of St. John the

Baptist. The overall project was one of the most ambitious of all held in the Royal Site of San Lorenzo de El Escorial.
